WBQ Completion Guide

#reachforthestars

## Advice for Challenges:

Use the Individual Project structure flowchart available on P: drive to know which section of the work you are currently completing.

Stay organised by completing your Individual Project by each Aim & Objective.

Remember the Individual Project required quantitative data analysis, so numerical data that can be measured & analysed has to be included.

Community Challenge

To be completed from January to March 2020

Key Dates for the year:

Enterprise & Employability entered: 9th December 2019

Community & Individual Project entered: 24th April 2020

Revision tools/strategies/resources:

All Powerpoints and helpful advice can be found on the P: drive – Student – Pupil Resources (Years 9-11) – Individual Project

Use the modelled examples available to help you understand the structure and the language used throughout. This can be found on P: drive – Student – Pupil Resources (Years 9-11) – EXAMPLE WORK

Remember that the Individual Project is **not** a Controlled Assessment so you are encouraged to work on it at home or in your free time – GE12 is available both breaks to complete work.
